About Institute:

National Institute of Technology, Srinagar (NITSRI) was established in 1960 as the Regional Engineering College (REC), Srinagar, Jammu and Kashmir, India. It was one of the first eight regional engineering colleges established by Government of India during the first five Year Plan (1956–61). It is governed by the National Institutes of Technology Act, 2007 which has declared it as institute of national importance. It is one of the 31st NIT and as such is directly under the control of the MHRD.

NIT campus is on bank of Dal lake known as Srinagar Jewel. Also, most respected and beautiful holly place of Muslims called Hazratbal Shrine walkable distance from campus.

About Electrical Engineering Department:

The Department of Electrical Engineering is one of the oldest departments. The department runs undergraduate, Masters and PhD programme. The department has experienced and distinguished faculty with all of them having PhD from renowned institutes. The faculties constantly engage in research apart from teaching. There are ten fully equipped laboratories in the department dedicated to students and researchers.

The conference welcomes papers on the following topics of interest but not limited to:

- Energy generation, transmission and distribution in deregulated environment
- Market based generation and transmission planning
- Electricity market around the world
- Restructured power system modelling towards practically
- Wide area monitoring and control
- Transmission open access and pricing
- Power System Reliability
- Smart grid, micro grids
- Energy storage systems
- PMU
- Active distribution networks
- Optimal operation
- Renewable energy system and grid integration
- Transmission planning, FACTS controllers and HVDC systems application to congestion management

Submission Processes:

Paper must be submitted directly to jagtapkushal@nitsri.net
